ABOUT COMPANY

Al Nahedh Group was established in 1986 in the Kingdom of Saudi Arabia, initially focusing on general services, industrial services, and general contracting. With over thirty years of experience, Al Nahedh Group has built an exceptional reputation for excellence and innovation across a range of specialized services. The group currently comprises three core entities:

مكمن
MAKMAN

Makman Petroleum Services:

Specializes in providing comprehensive petroleum services, focusing on advanced and innovative solutions, as well as technical support in the oil, gas, and energy sectors.

ARTA
خدمات بيئية
Environmental Services

Arta Environmental Services:

Focused on environmental management, Arta provides cutting-edge, sustainable solutions to meet diverse ecological needs.

سردال
SERDAAL

Serdaal General Contracting Co.:

Provides a wide range of industrial, construction, and general contracting services.

Our diverse operations span key sectors including petroleum services, environmental management, industrial and general contracting, trade, and petrochemicals. Each entity within the group reflects our steadfast commitment to quality, sustainability, and customer service at the highest professional standards. These entities exemplify our dedication to delivering exceptional and sustainable services, enhancing the group's position as a leading and diverse force across all sectors.

The group also plans to expand its service offerings and investments into the transportation and logistics, real estate development, and industrial sectors in the future.

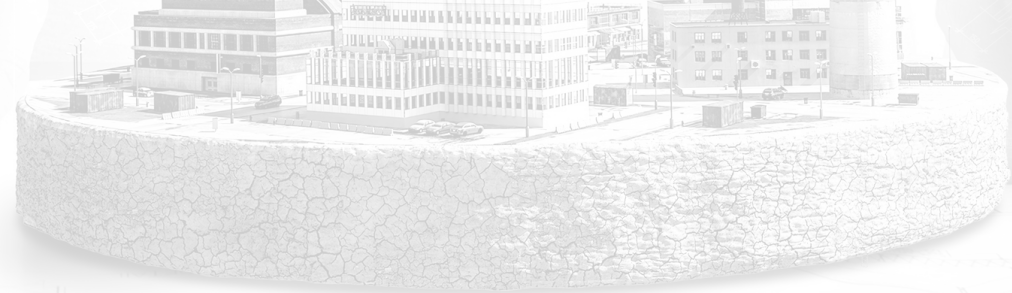

Our Vision

Our aspiration is to be the benchmark of excellence and innovation across various commercial, industrial, and service sectors in the Kingdom of Saudi Arabia. We aim to contribute to the development of new standards in petrochemical services, petroleum services, environmental management, general contracting, and energy. Al-Nahidh Group seeks to achieve the highest peaks of leadership in development, sustainability, and quality, providing exceptional value to the community around us.

Our Mission

Our mission is to deliver high-quality and innovative products and services that contribute to substantial growth, improve quality of life, and promote sustainable environmental stewardship in alignment with Vision 2030, while maintaining the highest standards of integrity and professionalism.

Core Values

Innovation

Embracing new technologies and methodologies to stay ahead in our respective industries

Integrity

Upholding the highest ethical standards in all our business practices

Excellence

Delivering exceptional results through meticulous planning and execution

Safety

Ensuring the safety and well-being of our employees, clients, and the environment

Customer Centricity

We are committed to understanding and exceeding our customers' expectations

Responsibility

We take ownership of our actions and their impact on our community and environment

Sustainability

Promoting sustainable practices that protect and preserve our environment

Collaboration

We believe in the power of teamwork and partnerships to achieve shared goals

MAKMAN PETROLEUM SERVICES

Makman Petroleum Services Co. is a leading provider of specialized solutions for the energy sector in the Kingdom of Saudi Arabia. The company offers a comprehensive range of services, including advanced drilling solutions and specialized spare parts solutions. By leveraging cutting-edge technology and a commitment to sustainability, Makman Petroleum Services Co. upholds the highest standards of operational excellence and regulatory compliance throughout the petroleum lifecycle.

Main Services

Geophysical Surveys

Utilizing advanced seismic and magnetic technologies for precise subsurface imaging, enabling accurate identification of potential hydrocarbon reserves.

Regulatory Compliance and Environmental Stewardship

Ensuring all operations comply with regulatory standards and environmental guidelines, promoting sustainable and responsible practices.

Geological Studies

Conducting detailed geological analyses to support exploration and ensure successful drilling operations.

Drilling Services

Providing expert onshore and offshore drilling with state-of-the-art rigs and equipment, ensuring safe and efficient operations.

Support Services

Maintenance & support

Offering comprehensive maintenance and technical support to ensure optimal performance and minimize downtime for drilling and production equipment.

Production Optimization & Processing Solutions

Maximizing efficiency and output through advanced reservoir management, innovative oil recovery techniques, and cutting-edge processing technology.

Well Testing and Analysis

Conducting detailed evaluations of well performance to optimize production rates and improve reservoir management.

Spare Parts Provision

Providing high-quality spare parts for petroleum and petrochemical equipment, ensuring minimal downtime and operational efficiency.

Field Services and Support

Offering on-site technical support, maintenance, and repair to ensure smooth operation of oil and gas equipment.

Asset Integrity Management & Flow Assurance

Ensuring the reliability and efficiency of critical infrastructure through comprehensive inspection, corrosion management, and solutions for flow challenges in pipelines and processing facilities.

Facility Design and Engineering

Providing design and engineering services for new production facilities and optimizing existing ones to meet operational needs.

Trading Services

Providing high-quality spare parts for petroleum and petrochemical equipment, ensuring minimal downtime and operational efficiency.

Chemical supply

Providing high-quality chemicals through efficient supply, trading, and storage operations, ensuring reliable access to essential materials across various industries.

ARTA ENVIRONMENT SERVICES

Arta Environmental Services company is a premier provider of environmental solutions in the region, specializing in the management of industrial by-products, off-grade products, waste, and recycling. We offer advanced services in environmental control, chemical cleaning, leak detection, and responsible disposal, ensuring compliance with stringent regulations and supporting clients' sustainability goals.

Environmental Services

Environmental Impact Assessments

Conducting thorough EIAs to evaluate potential environmental impacts of projects, ensuring adherence to regulatory standards, and developing effective mitigation strategies to minimize adverse effects.

By-Product Management Services

Handling industrial by-products with a focus on minimizing waste and maximizing resource recovery. We use advanced technologies and best practices to ensure responsible processing.

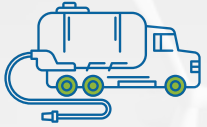

Chemical Cleaning and Leak Detection

Offering specialized chemical cleaning services and accurate leak detection to maintain environmental control and ensure operational efficiency.

Spill Response and Remediation

Deploying rapid response teams and cutting-edge technology to manage and remediate oil spills and other environmental emergencies effectively, restoring affected areas to their natural state.

Vacuum Truck Services

Providing efficient vacuum truck services for the collection and disposal of liquids, sludges, and other materials, ensuring effective waste management and environmental protection.

Regulatory Compliance and Environmental Stewardship

Arta Environmental Services offers comprehensive solutions for by-product management and waste disposal, prioritizing regulatory compliance and environmental sustainability.

Environmental Analysis and Monitoring

Conducting detailed analysis of environmental pollutants, including soil, water, and air quality assessments, to monitor and address contamination and ensure compliance with environmental standards.

Waste Management Services

Providing safe and efficient disposal and treatment of hazardous and non-hazardous waste generated from petroleum operations. Our services include

Hazardous Waste Disposal

Safe, compliant disposal of hazardous materials, including chemical, biological, and industrial waste.

Non-Hazardous Waste Treatment

Efficient management and treatment of non-hazardous waste to reduce environmental impact.

Recycling and Resource Recovery

Implementing recycling programs and resource recovery initiatives to support sustainable waste management practices.

Sustainable Solutions

Eco-Friendly Practices

Advising on and implementing sustainable practices to minimize the environmental footprint of client operations.

Green Technologies

Integrating advanced green technologies to enhance environmental performance and efficiency.

Biodiversity Conservation

Promoting habitat restoration and protection to support biodiversity conservation.

Shoreline Management

Organizing and regulating coastal areas to prevent pollution and protect marine ecosystems.

SERDAAL GENERAL CONTRACTING

Serdaal General Contracting Co. stands at the forefront of construction and maintenance services, offering a comprehensive suite of solutions including facility management, landscaping, civil engineering, and housekeeping and hospitality. We also specialize in spare parts trading and sourcing, as well as providing expert agency services. Our team of highly experienced professionals is committed to delivering exceptional, reliable solutions meticulously tailored to meet the precise needs of each client.

Facility Management & Construction Services

General Contracting

Offering comprehensive construction services, including project management, site preparation, and structural work for residential, commercial, and industrial projects.

Structural Engineering

Delivering expert structural engineering solutions to ensure the stability and integrity of construction projects.

Renovations & Remodeling

Specializing in renovations and remodeling to enhance and update existing structures according to client specifications.

Building Maintenance

Delivering comprehensive maintenance services to ensure the seamless operation and longevity of residential, commercial, and industrial facilities.

Equipment Rental

Offering rental services for construction and landscaping equipment, including loading and unloading of goods and materials.

Spare Parts Trading & Sourcing

Specializing in the trading and sourcing of high-quality spare parts for construction and facility maintenance.

Housekeeping Services

Delivering professional housekeeping services to maintain cleanliness and order in residential and commercial environments.

Agency Services

Offering expert agency services to support a wide range of operational and administrative needs

Hospitality Services

Providing exceptional hospitality services to enhance guest experiences in various settings

Landscape Services

Design & Installation

Crafting and installing visually appealing and functional landscapes tailored to various property types.

Irrigation Systems

Designing and installing advanced irrigation systems to promote efficient and sustainable water usage.
